

VELKOMMEN TIL
WELCOME

NOSE2TAIL

MEATPACKER

NOSE2TAIL is a philosophy!

A philosophy about using every part of the animal - also the innards and the odd cuts, which according to us offers plenty of interesting taste experiences.

It also concerns the quality of the meat and animal welfare. To serve the meat when it is at its peak and only choosing meat from animals, which have lived a decent life.

At NOSE2TAIL Meatpacker the meat and innards come from producers with focus on animal welfare. Small cages and poor living conditions are not welcome in our kitchen.

Pork - All our pork meat comes from happy Svendborg pigs on Fyn.

Due to the varieties in feed and environment coming from a free range life, varieties in fattiness and colour of the meat can be seen, but it all taste great! If we must say it ourselves.

And we always have Fernet Branca for 10kr...
